# Palliative Care:

## Presentations for Medical Educators

This CD contains 18 of the most requested educational topics in adult palliative and hospice care. Each presentation contains up-to-date information on key topics of interest for physicians caring for seriously ill and dying patients.

### List of Topics:

1. Artificial Hydration/Nutrition
2. Bad News
3. Constipation
4. Cultural Considerations
5. Depression
6. DNR
7. Dyspnea/Delirium
8. Ethics
9. Goals of Care/Family Conf
10. Hospice
11. Last Days
12. Nausea
13. Pain Assessment
14. Pain or Addiction
15. Pain Drug Therapy
16. Dying in America
17. Psychosocial Care
18. Self Care

### Each Topic Contains the Following:

**File 1.** A PowerPoint presentation (30-60 minutes) that can be presented as a typical slideshow or overhead projector presentation, or printed as a handout for an informal small group discussion. The presentation includes:

- A. Learning objectives
- B. One or more reflective exercises
- C. Learning points – learners are guided to reflect on the presentation and summarize key learning points
- D. A list of key references

**File 2.** Palliative care Fast Facts and Concepts – supplemental learning information to be used as handouts or as a pre-reading assignment

**File 3.** An evaluation form for presenters to provide feedback to EPERC

**File 4.** Multiple-choice questions to gauge learning at the end of the presentation or as a pre-test

### The Material is Suitable for:

- Departmental grand rounds or ethics conference
- Palliative care lecture series
- Hospice education/training programs for physicians, nurses and other hospice team members
- Medical school education: pre-clinical and clinical education
- Residency training to meet ACGME guidelines in palliative care education, communication skills, professionalism and ethics
- Nursing education programs

### System Requirements:

Windows 2000 or higher

### Program Faculty:

David E. Weissman, MD, FACP  
Professor of Medicine  
Director, Palliative Care Center  
Editor, *Journal of Palliative Medicine*  
Co-Director, End of Life/Palliative Education Resource Center
